**Sign up today and start receiving threat information that could affect your organization or agency.**

### **What is MIAC and why it is needed?**

Missouri Information Analysis Center (MIAC) provides a public safety partnership consisting of local, state and federal agencies, as well as the public sector and private entities that will collect, evaluate, analyze, and disseminate information and intelligence to the agencies tasked with Homeland Security responsibilities in a timely, effective, and secure manner.

MIAC is the mechanism to collect incident reports of suspicious activities to be evaluated and analyzed in an effort to identify potential trends or patterns of terrorist or criminal operations within the state of Missouri. MIAC will also function as a vehicle for two-way communication between federal, state and local law enforcement community within our region.

### **Who Should Participate?**

Our law enforcement and criminal justice allies are some of the most vital partnerships and valuable resources to business. Often our local criminal justice agencies are not aware of the many ways the private sector can support them. The MIAC member corporations' value to our communities goes far beyond providing a safe place to operate business.

### **Why Become a Partner?**

Intelligence is a vital key to the "War on Terrorism and Crime". Becoming a partner in the MIAC program has several benefits; it ensures that potential threat-related, but not necessarily urgent, information is shared with our partners; it facilitates the productive liaison between federal, state and local law enforcement community; and it encourages the sharing of potentially crucial intelligence. Partners also benefit by receiving valuable training provided by MIAC members or other MIAC partner agencies
