**WELCOME TO WAVE TECHNOLOGIES, INC.**

Wave Technologies, Inc. (WTI) is a veteran owned, HUBZone certified, small business.

WTI provides ISR Life Cycle systems engineering and integration, analysis center solutions, systems engineering and technical assistance services (SETA), Tactical Aircraft and Weapons Systems, and unmanned aerial vehicle technical services to government clients in the Department of Defense, Intelligence Community, and broader national security arena.

The WTI staff can provide functional management services to include requirements definition, system planning, design, and development, integration, testing and evaluation, production engineering, accreditation, configuration management, life cycle sustainment, operations, and readiness.
